Curriculum Vitae - Alex Chen

Candidate Name: Alex Chen | Candidate ID: cand_alex_chen

Role: Senior Backend & Distributed Systems Engineer | Experience: 6.5 Years

Summary: Highly experienced software engineer specializing in distributed systems, asynchronous event architectures, microservices, and high-volume data pipelines.

Core Technical Skills: Python, FastAPI, Docker, Kubernetes, PostgreSQL, Redis, Apache Kafka, Distributed Transactions, Microservices, CI/CD, Linux.

Professional Experience:

- Staff Platform Engineer at CloudTech Systems (2022 - Present): Architected microservices with Python and FastAPI handling 45,000 requests/sec. Orchestrated container workloads using Kubernetes and Helm.

- Senior Backend Engineer at FinStream Corp (2019 - 2022): Designed robust database schemas in PostgreSQL, implemented distributed caching using Redis clusters, and optimized slow SQL queries.

Education: Bachelor of Science in Computer Science, State University.
